## 1310nm optical module

## 1310nm optical module

Featuring a built-in Semtec/Macom chip and reliable DFB laser from global leaders, the 10G SFP+ ER1310 module delivers low power consumption and stable optical links for high-speed single mode ...

OSP–SM10 is a fiber optic transceiver for 1310nm single–mode signals. This standard pluggable SFP+ module has two LC connectors for reception and transmission signals over two strands of ...

If an optical module fails to work when inserted, it is most likely due to a compatibility issue. You need to verify if the interface on your switch or other equipment matches the speed rating ...

FS provides 1/2/4G transceivers modules in SFP form factor, supporting transmission distances from 100m to 120km over SMF/MMF fiber and enabling low power and ...

The XG-SFP-LR-SM1310 is aligned to IEEE 10GBASE-LR optical specifications and supports a link length of up to 10 kilometers over a single-mode fiber (SMF) with an LC connector.

For better user experience, we highly recommend you to update your device to the latest firmware asap. \*Product performance is based on testing in a controlled environment. Your results may vary due to ...

Upgrade networks with our optical transceiver sfp+ 10g single mode module 1310nm 10km lc. This LC transceiver delivers effortless 10km connectivity for data centers and servers.

SFP-GE-LX-SM1310-IN Gigabit Single-Mode 10km Optical Module Specification Download How to buy

1310nm optical modules are essential for efficient data transmission in fiber optic networks, especially for medium distances. These modules offer low signal loss and minimal ...

10-Gigabit Singlemode SFP+ module from the manufacturer Conexpro with a wavelength of 1310 nm (Tx/Rx), speed of 10 Gbps, and two LC connectors with UPC finish is designed for transmission over ...
