

Canadian technical support for flame retardant outdoor server racks

Overview

Customer Service and distributing a line of top rated fire retardant coatings and flame retardant sprays that have been certified and documented to exceed the standards of other products on the market. We're committed to serving you with quality and value. Output Volt-Amps (VA) is a measurement of electrical power and is used to size a UPS system for the equipment that will be connected to it. Fan-cooled enclosures are also available. If you don't see what you are looking for, please call us and our customer service people can. Rittal presents its Wire Terminal WT C5 and C10 innovations that allow wire processing at speeds ten times faster than by hand. Get a 10% discount on a \$10,000 purchase. External depth: 18" (450 mm) and 24" (600 mm) 22U / 27U.
