

Cold aisle IP54 cabling system manufacturers for computer rooms

Overview

Polargy designs and manufactures hot aisle containment and cold aisle containment systems that improve data center cooling performance, optimize airflow, and support energy-efficient white space environments. An enormous amount of energy is used every day to maintain an acceptable intake temperature to the IT equipment. In recent years, there has been no greater. Rittal's new aisle containment line solves these problems with a modular, standards-based design that integrates easily with existing racks, cabling, HVAC, and safety systems. The one-tool design allows for quick and easy installation, removal, and re-installation with.
