

Gigabit single-mode single-fiber optical module SC self-operated 10km

Gigabit single-mode single-fiber optical module SC self-operated 10

The SPLX10a offers a long-haul option to extend your network up to 10km.

This data sheet describes the benefits, specifications, and ordering information for the Cisco SFP Modules for Gigabit Ethernet Applications.

GIGALIGHT's 1G BiDi SFP series optical transceiver modules support a speed of 1.25Gbps, widely used in Gigabit Ethernet, 1G fiber channel, and SDH. They can achieve a maximum transmission distance ...

FS gigabit ethernet transceiver solutions provide fibre or copper options including 1000BASE-SX, 1000BASE-LX/LH, 1000BASE-T etc., from 100m to 160km, for 1G switches, routers, servers, NICs ...

Utilizing LC connectors and operating at a 1310nm wavelength, it enables high-speed data transmission over single-mode fiber for distances up to 10 kilometers. This module provides a reliable long-reach ...

Our 1 Gigabit Singlemode SFP Transceivers offer high-performance, reliable connectivity for singlemode fiber optic networks. These transceivers are engineered for long-distance applications, supporting ...

The GLC-BX-D-IO modules supports a link length of up to 10km on standard single-mode fiber (SMF, G.652). A GLC-BX-U-IO module is used at the other end of the fiber.

The single strand BiDi (also called WDM) SFPs equipped with SC connector are available for 20Km range only, but on special order all other distances can be provided, just like the LC based series ...

THE IT PRO'S CHOICE: Designed and built for IT Professionals, this SFP module is backed for life (lifetime of module, not network switch), including free lifetime 24/5 multi-lingual technical assistance

SFP transceiver that supports 1G connections up to 3 km using single-mode fiber with a simplex LC UPC connector.
