

How much does a dedicated distribution box cost

Overview

New panel box pricing typically ranges from about \$150 to \$1,900 for parts and labor, with most residential projects landing between \$450 and \$1,500 depending on amp rating, gauge of wiring, and labor complexity. Distribution box cost encompasses various factors that influence the overall investment in electrical distribution systems. A distribution box serves as a crucial component in electrical installations, housing circuit breakers, fuses, and other protective devices that ensure safe power distribution. Homeowners typically see a wide range when budgeting for a new electrical box, driven by panel size, age, and local permitting. The cost includes materials, labor, and possible inspections or upgrades to meet code requirements. The Home Depot has all your breaker box needs covered, with a wide selection of options from top brands, electrical know-how, helpful buying guide videos and more.
