

How much does fiber optic cable design cost

Overview

Fiber optic cable installation costs average \$4,500 for most homeowners, with most installations ranging from \$1,500 to \$7,000. Fiber-optic cable materials typically cost \$1 to \$6 per linear foot, depending on fiber count and cable type. Single-mode fiber costs less per foot than multimode fiber, but it requires more. Homeowners and businesses typically pay for fiber optic cable installation based on distance, conduit needs, and labor. The main cost drivers include material type, run length, trenching or aerial work, and any required permits or inspections. The following sections outline typical costs, what drives them, and ways to.
