

India LPO Optical Module 400G

India LPO Optical Module 400G

An optical fiber cable with an MTP/MPO-12 connector can be plugged into the QSFP112 DR4 module receptacle. Host FEC is required to support up to 0.5Km fiber transmission.

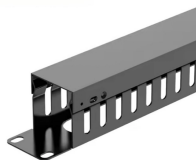

The specification defines the necessary optical and electrical requirements for a robust ecosystem of LPO-compatible switch, NIC and module products leveraging WDM infrastructure.

Eoptolink QSFP112 400G LPO transceivers are compliant to the latest releases of the QSFP112 MSA. The firmware supports CMIS 5.0 and newer release. We offer transceivers for DR4, SR4 and FR4 ...

The LPO optical module performs transmit and receive functions that convey analog signals between the host and the medium. Its electrical interfaces are based on OIF CEI-112G ...

Experience the future with our 400G LPO QSFP112, integrating Linear-Drive Technology for unparalleled short-range, high-bandwidth, and low-latency performance. Say goodbye to complex ...

More durable and robust

The outer layer is made of environmentally friendly PVC which is soft and elastic. It can be stretched without damage - so you can use it with confidence.

It is a high-performance, low-power, low-latency and cost-effective module. The module contains 4 parallel channels on the transmitter and receiver, each operating at 106.25Gbps.

This 400G LPO QSFP112 module has low power consumption, which can reduce latency and meet our requirements in the data center. FiberMall LQSFP112-400G-FR4 uses LPO technology and is a high ...

Focus creates quality products

The LPO design helps lower power consumption and reduce latency, making it more energy-efficient and cost-effective. This hot-pluggable module includes high performance modulators and detectors ...

Offering an aggregate data transmission rate of 400Gbps over single-mode fiber (SMF), this module delivers unparalleled performance, reliability, and scalability for demanding cloud, enterprise, and ...
