

Is it mandatory to install a distribution box in the elevator machine room

Overview

EXCEPTION: Passage to enclosed equipment installed within the elevator machine room to provide the ventilation required by Section 3011 (f) (2) (A). (4) Elevator machine rooms or enclosed areas shall be kept free of all materials except those used for repair or. (1) Elevator driving machines, motor generator sets, controllers, and auxiliary control equipment shall be installed in a room or enclosure set aside for that purpose. Exception: Existing installations of cabinet-type machines. 51 indicates that the location of elevator disconnects need to be, something about, accessible to qualified persons. I believe there is a requirement for proximity to the door. Is there not?

Has this changed OR should I be looking in the, in this case MA, elevator code for.

Is it mandatory to install a distribution box in the elevator machine

(2) The enclosure for the elevator equipment shall be arranged so that passage through the machine room or enclosure is not necessary to gain access to other equipment or other parts of the building.

(3) The enclosure for the elevator equipment shall be arranged so that passage through the machine room or enclosure is not necessary to gain access to other equipment or other parts of the building.
