

Israel Control Distribution Box Assembly Plant

Israel Control Distribution Box Assembly Plant

Established in 1995, Automatica is today a leading provider of factory automation in Israel. We supply turn-key based solutions such as assembly lines, testing & inspection machines,

Optimization of our engineering and manufacturing resources in Israel and in China to achieve the shortest time to market and a very compatible total cost of ownership

Ardan Katzenstein's operations are based in modern, progressive, and innovative facilities in Caesarea and Haifa, Israel. The company is known for developing and manufacturing distribution boards, ...

This production line is equipment for production of distribution boxes. The strip coil to be processed is manually placed on the uncoiler, and then corrected and tensioned.

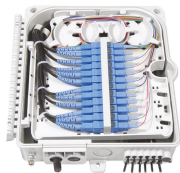

The electrical and control panels are manufactured in our factory in the Mevo Carmel Industrial and Science Park and are sent for installation in buildings and installed at the power station.

Transpro's manufacturing of electric panel boards and control boards take place in our state-of-the-art plant facility, utilizing the highest standard of quality and are in compliance with ISO 9001, IPC610 ...

Our distribution panels are assembled with customer specific cable widths, adapters and connectors. We also design and manufacture panel distribution cabinets for export-oriented OEMs.

We have extensive and diverse expertise in industrial applications, including semiconductor equipment, digital and 3D printers, renewable energy, and ATE systems.

We specialized in full turn-key manufacturing of control panels, power distribution units, electrical cabinets, cable assembly, HW & SW Testing JIG's and many other engineering solutions.

The company specializes in planning, designing and manufacturing of electrical cabinets, control panels, cable harness and many other electromechanical solutions.
