

Kazakhstan has fiber optic cable

Overview

Kazakhstan already has two fiber-optic cable connections with Chinese networks, but Kazakh authorities are reportedly hesitant to expand in that direction, given China's well-known reputation for monitoring and controlling the flow of digital information. Kazakhstan and Uzbekistan are striving to reduce their digital dependence on Russia and tilt their economic attention a bit more to the West. The two countries are moving forward with a plan to lay a fiber-optic cable beneath the Caspian Sea to establish a connection with Azerbaijan.

Kazakhstan has fiber optic cable
