

Lao Fiber Ethernet Switch DML

Lao Fiber Ethernet Switch DML

L-com's Multimode fiber A/B Network Switches are physical layer hardware solutions which support a variety of switching, or access and control applications all in a compact desktop enclosure.

These fanless, rugged switches are engineered for harsh conditions and provide Gigabit and 10/100 Mbps connectivity with options for fixed fiber and SFP interfaces.

These devices are typically used with VCSEL lasers and Photodectors for optical transmission over multi-mode fiber. Typical reach of these applications is up to 300m for short reach applications.

Product description The new 8 ports 1G/10G desktop Ethernet switch provides seamless network connections, integrating Gigabit Ethernet and 10G Ethernet network via fiber.

Lightem Systems Fiber Ethernet Switches are designed for low density environment, miniature but with fiber or SFP interfaces for backbone communications.

Ethernet switches are available with different management levels and a variety of port configurations, from simple unmanaged switches up to fully managed Ethernet routing switches with up to 16 fibre ...

In summary, these industrial-grade Ethernet switches, equipped with robust features, compatibility with various fiber types, and specialized technologies, offer a dependable solution for demanding ...

Discover high-performance Ethernet network switches for seamless connectivity and efficient data transfer. Explore managed & unmanaged switches for your networking needs!

Most modern fiber-enabled network switches require an SFP transceiver module featuring a duplex (two strand) multimode OM3 or duplex single mode OS2 connection with LC connectors. Direct attach ...

Choose from our selection of fiber optic ethernet switches, including DIN-rail mount ethernet switches, light duty ethernet switches, and more. Same and Next Day Delivery.

L-com's Multimode fiber A/B Network Switches are physical layer hardware ...
