

Manufacturer of red light source attenuation blind zone 5m

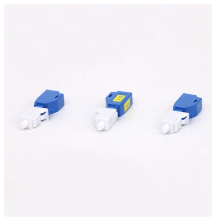

Overview

Made in USA, our Laser Safety Halo™ produces a highly saturated colour for an intensely visible exclusion zone and can project long distances not possible with other light technologies. This Laser Safety Halo product is a single red light that projects a single red line up to a. Based on 30 years of R&D and manufacturing experience, our JILONG KL-6100 OTDR is designed for FTTx network installation, troubleshooting, and testing. It offers single, dual, and three-wavelength models, with the single-wavelength model supporting online testing. Sharp bends, breaks, faulty connectors and other faults will “leak” red light allowing technicians to visually spot the defects. Our custom red light therapy devices are developed by our own team, which helps us reduce costs and increase delivery of quality finished products. Hence they are commonly referred to as Uniform Light Sources. Automotive qualified high-power flood illuminator for 3D ToF and 2D NIR based in-cabin sensing systems.
