

North Africa 36-core Smart Building Optical Cable Factory

North Africa 36-core Smart Building Optical Cable Factory

This list was initially developed as part of AfTerFibre, a project to map terrestrial fibre optic cable projects in Africa. The project was sponsored by Google Africa and, on completion, will be hosted by ...

This is double the capacity of older systems. It is the first 16-fiber-pair subsea cable to fully connect Africa. We incorporated undersea optical wavelength switching, enabling flexible ...

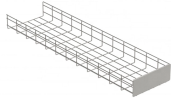

Yangtze Optics Africa Cable (YOA) has more than doubled its North Coast investment with a new R160-million fibre optic cable factory at Dube TradePort.

Based on 30 years of manufacturing experience and research from ZTT, we have integrated the national leading advantage of the identification resolution system, as well as industry-leading technologies ...

2Africa, a META-led digital infrastructure initiative, is the first subsea cable to provide a continuous link between East and West Africa while extending onward to the Middle East, South Asia ...

Fibre cable maker Yangtze Optics Africa Cable has opened a R160 million facility — the biggest optical fibre cable manufacturing plant on the continent — at the Dube Tradeport special ...

The Medusa Submarine Cable System, a project owned by AFR-IX Telecom, is a significant step toward closing the digital divide between Europe and North Africa, connecting ...

Nigeria's digital infrastructure took a significant step forward with the commissioning of Africa's largest fibre optic cable factory and the continent's first fibre-reinforced plastic (FRP)...

The 2Africa cable will be integrated into STC's MENA Gateway (MG1) datacentre in Jeddah, enabling customers to access our extensive international content and extend their regional connectivity ...
