

Oman 10 Gigabit Single-Fiber Bidirectional Optical Module

50km/spool

Oman 10 Gigabit Single-Fiber Bidirectional Optical Module

10G SFP+ BiDi 10 \square 80km Single-fiber Bidirectional Transceiver Module (Industrial Grade Optional)

Purchase the Intel 10G SFP+ LR module, offering lightning-fast 10 Gigabit Ethernet connectivity for seamless and high-speed data transmission for your switches, servers, and other network ...

SFP+ transceiver that supports 10G connections up to 10 km using single-mode fiber with a simplex LC UPC connector.

The 1000BASE-ZX SFP operates on standard single-mode fiber-optic link spans of up to approximately 70 km in length. The SFP provides an optical link budget of 21 dB, but the precise link span length ...

Learn what SFP+ BiDi 10G is, how single-fiber 10G transceivers work, key specs, use cases, and how to choose the right BiDi module.

10G SFP+ BiDi 10-80km Single-fiber Bidirectional Transceiver Module (Industrial Grade Optional)

Explore how 10G BiDi SFP+ modules enable high-speed, bidirectional data over a single fiber, cutting costs, saving fiber, and simplifying network deployment.

Single-fiber bidirectional (BIDI) optical modules must be used in pairs. For example, SFP-10G-BXU1 must be used with SFP-10G-BXD1.

For long-distance runs of 300+ meters, use U-Fiber 1G or 10G single-mode modules and BiDi models for maximum reuse of existing infrastructure. For shorter runs, use U-Fiber 1G or 10G multi-mode ...

Some 10G BiDi SFP+ modules are designed for bidirectional 10G serial optical data communications such as IEEE 802.3ae 10GBASE-BX by usually using 1330 (1270nm) transmitter and 1270 (1330) ...

Complete your high-speed, long-distance fiber installation with the UACC-OM-SM-10G-S 10G SFP+ Bidirectional Single-Mode Optical Module from Ubiquiti Networks, provided here in a pack of two.
