

Optical Guide Cable

Overview

Light guides and fibre optic light pipes each serve essential roles in optical systems, but they aren't interchangeable. Our in-house development teams and production facilities produce the latest glass optical fibers, bundles, cables and assemblies for versatile and customized. Fiber Optic Light Guides are used to transmit illumination provided by fiber optic illuminators for a number of imaging or microscopy applications. If the product you are using is not listed, please call your Cadmet sales representative for assistance - 800-543-7282. Integra/Luxtec compatible bifurcated headlight cable. Delivering seamless performance from the national power grid to your living room, the PowerGuide product line includes PowerGuide Double Jacket Cable, PowerGuide ShortSpan DT Cable and PowerGuide AccuTube®+ Rollable Ribbon (RR) ADSS Cable.
