

Optical Splitter Matching Equipment

Optical Splitter Matching Equipment

MUX, DEMUX, & Splitters ChallengerOptics stocks a large supply of DWDM Muxes and Optical Splitters. Tray Mount or LGX module, 900 μm / connectorized, or 250 μm / bare.

Fiber Instrument Sales has a wide variety of fiber optic splicing equipment such as fusion splicers from AFL, Sumitomo, FITEL, and FIS. FIS also splicing tools and accessories such as cleavers, thermal ...

Clearfield leads the way with optical component technologies for PON splitting, C/W division multiplexing and optical circulators. These products are custom built to your unique split ratios, light requirements ...

Custom manufacturer of optical beam splitters for semiconductors, electronics, and medical industries. Contract manufacturing services are also offered. Suitable for micro-electromechanical systems ...

MUX, DEMUX, & Splitters ChallengerOptics stocks a large supply of DWDM Muxes and Optical Splitters. Tray Mount or LGX module, 900 μm / connectorized, or 250 ...

Adapters are also ideal for joining to dissimilar patch cables together to match equipment I/O requirements, while couplers are ideal for extending the distance of terminated fiber cables.

Explore our comprehensive selection of high-performance fiber optic splitters. We offer a variety of PLC splitter types, including ABS box, LGX cassette, and rack-mount options with multiple split ratios.

These splitters feature a rugged miniature housing to fit into compact spaces in equipment and systems. Light from a fiber is first collimated, then sent through a beam-splitting optic to divide it into two ...

Couplers / Splitters by AFL include Planar lightwave circuit splitters, LGX optical couplers, wideband couplers, ruggedized couplers and FTTx video modules.

Fiber splitter solutions from Maxcom featuring PLC technology, low insertion loss, and high reliability. Ideal for CATV, RFoG, FTTx, and FTTH optical networks.

FS offers passive optical components & termination equipment to meet flexible optical network needs by fiber signal attenuation, separation, termination, etc.
