

Optical power meter sold separately

Optical power meter sold separately

It combines pass/fail fiber inspection and optical power measurement (OPM) into one solution. With a 100 dB dynamic range, it is a professional, versatile, and compact instrument perfect for any fiber ...

When used with OWL fiber optic light sources (sold separately), the power meter includes a built-in loss wizard that helps you easily calculate the allowable loss for the fiber runs that you will be measuring.

Packed with other features including a simple wavelength measurement technique developed at ILX Lightwave, the OMM-6810B becomes the only power meter to measure wavelength and power in a ...

Products Light Analysis Optical Meters Benchtop Power & Energy Meters ILX Precision Fiber Optic Power Meters

The ILX Lightwave OMM-6810B is an accurate, low-noise power meter capable of measuring optical power over an 80 dB dynamic range, and offers the stability and repeatability necessary for precise ...

Choose the optical power meter you need to enable centralized control, flexible connectivity, and scalable measurement capability for optical component development or production test. Choose one ...

It combines pass/fail fiber inspection and optical power measurement (OPM) into ...

Laser Power Meters are ideal for measuring the energy output of laser beams for testing or laser system applications at Edmund Optics.

The FlowScout OPM8 optical power meter represents the next generation of smart optical power meters. Designed on the legacy of AFL/Noyes OPMs, the FlowScout OPM8 provides rapid loss ...
