PCC optical cable

PCC optical cable

solutions for 10G Ethernet and 10G Fiber Channel applications. SFP+ copper modules allow hardware manufactures to achieve high port density, configurabilit. and utilization at a very low cast and ...

At the heart of the Miniflex brand is a fiber cable that features grooving technology for incredible flexibility, paired with unmatched kink resistance. Other Miniflex cabling products include QuikPush ® ...

Miniflex® Patch cables and Pigtails are high performance cables suitable for use in all types of fiber networks. These PPC cables are manufactured using a state-of-the-art controlled manufacturing ...

Our family of products support a wide range of network architectures and applications. Our end-to-end fiber products for optical transport include cabling, enclosures, multiplexers and transceivers, fiber ...

Comparative advantages of other PCC cables: light weight, ease of construction (light weight, bendable cable), minimized fire risk, etc. Applicable to existing or new installation sites.

GIGALIGHT's 400G OSFP to 2x 200G QSFP56 PCC passive direct attach copper cable is designed for intra-rack or inter-rack interconnects in data centers. It complies with IEEE 802.3cd 400GBASE ...

Before shipment, We will code the optical modules or DAC/AOC cables, and then ...

Before shipment, We will code the optical modules or DAC/AOC cables, and then test them on the corresponding switches to ensure that our products are 100% compatible with your system.

DAC/PCC cables use electrical signals for data transmission and are designed for high-speed, low-latency applications over shorter distances. Like AOCs, DAC/PCCs are also with QSFP ...
