

Portuguese Galvanized Vertical Cable Tray Manufacturer

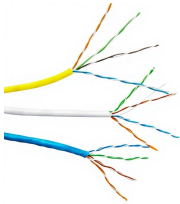

Overview

We, the foremost Galvanized Cable Tray Manufacturer and Supplier in Portugal, use high-grade steel and a meticulous hot-dip galvanization process to ensure our cable trays meet the highest quality standards. What are Galvanized Cable Trays?

They are a type of cable support system. These are cable management systems composed of trays, mounting support systems, direction changing parts, connection parts and fittings with the purpose of carrying and fixing cables safely in the electrical installations. Our custom-based products are able to match up your distinct needs. Cable tray wiring systems offer significant advantages over conduit pipe and other wiring systems. I hereby consent to the processing of my personal data in accordance with EU Regulation no. Our expertise and experience have allowed us to accumulate valuable technical knowledge, which is reflected in the quality of our products.
