

Price of 8-core wall-mounted patch panel for field operations in Fiji

Overview

Please view our full RLH price list and contact us at info@fiberopticlink.com if you have any questions or special project needs. A core fiber patch panel is an indispensable tool in the telecommunications sector, facilitating the connection, organization, and management of fiber optic cables. It is crucial for professionals tasked with the upkeep, setup, or management of fiber optic networks, as it ensures secure connections. Check each product page for other buying options. It supports up to 8 adapter ports, compatible with SC, LC, FC, and ST adapters, providing efficient fiber termination and management. It is used for direct connection and branch connection of indoor optical fiber, and plays the role of storage of tail fiber disk and protection of joint.
