

Price of Fire-Retardant Cold Aisle for Computer Rooms

Overview

TRAX hot aisle / cold aisle data center curtains are the industry leading low cost containment solutions. Click the button below to request a quote or call us. Data center aisle containment includes physical barriers that separate cold supply air from the hot exhaust generated by high powered servers and IT equipment. High performance containment systems help maintain a stable environment in mission critical server rooms by preventing hot and cold air. Plastic panels play a vital role in containing and protecting server systems (hot or cold) in mission-critical data centers. Engineered for easy design and installation. Standard sizes fit common aisle widths and heights while custom widths and heights can be easily accommodated.

Price of Fire-Retardant Cold Aisle for Computer Rooms
