

Purchase of Lateral Displacement Type Optical Attenuators

Purchase of Lateral Displacement Type Optical Attenuators

Our male-to-female buildout optical attenuation (Pads) are available across all fiber modes, featuring LC, LC/APC, SC, SC/APC, FC, FC/APC, and ST connector types. Our in-line attenuator is customized to ...

The N7768C is a four-channel power-monitored optical attenuator for multimode fiber applications. Its bulk-optic filter and collimated beam path is designed to assure homogeneous attenuation of all input ...

A large-scale optical communication product manufacturer integrating R& D, production and sales of optical fiber cables, optical modules, WDM, optical switches, splitters, optical circulators and other ...

VIAVI offers the industry's most complete range of optical attenuators for installation and maintenance of singlemode and multimode fibers and advanced, photonic-layer solutions for lab and production ...

OZ Optics offers a broad range of both variable and fixed attenuators having key competitive advantages. All of our attenuators operate over the two standard wavelength bands, the C-Band and ...

Types of splitters include cube, laser-line, polarizing, non-polarizing & plate beamsplitters. Laser beam combiners, glan-laser polarizers, laser line plate polarizers, laser line dichroic plate beamsplitters, ...

FS fixed and variable fiber optic attenuators with leading attenuating fibers guarantee consistent and stable fiber attenuation (0~60dB) in WDM transmission.

This optical attenuators buying guide provides technical background, comparison of major types, selection criteria, and an overview of suppliers.

Attenuators offers dependable operation for installation, testing, and network expansion from Fiber Instrument Sales.

Shop DigiKey's large in-stock selection of Fiber Optic Attenuators. View inventory, pricing and order now for same day shipping!
