

Reconnecting China Netcom fiber optic cable to the router

Mesh door/glass door optional

Sp-601 glass door

Sp-602 mesh door

Overview

This guide details the necessary physical and digital steps to connect your fiber line and activate your internet service. The fiber optic cable does not plug directly into a standard home router because the signal type must be translated. Why Use Fiber Optic Internet?

Before diving into the setup, let's quickly recap why fiber optics are worth the effort: Lightning-fast speeds (up to 1 Gbps or higher). The fiber line terminates at the Optical Network Terminal. Here you will find product documentation, firmware update files, frequently asked questions, troubleshooting guides, device emulators, and more, to help you get the most from your product.
