

Singapore Relay Protection Device

Singapore Relay Protection Device

With high performance, top quality, competitive price and excellent technical services, Sinetong relays will be the best choice for the customers. We have branches in China and Malaysia to handle our ...

Contactors and relays play a crucial role in electrical systems by serving as switches that control power flow. Know the difference to protect your equipment from power faults with electrical contactors and ...

Main Range of product Sepam series 48 Sepam series 80 NPP Sepam series 60 Sepam series 20 Sepam series 80 Sepam series 40 Device short name CSH200 Complementary Current transformer ...

You use the electronic monitoring relays PMD to monitor electrical safety. Our products guarantee internationally certified safety for your plant and machinery and offer an optimum cost/performance ratio.

Find high-quality products like contact relays, magnetic contactors, and more.

We distribute a wide range of relays, which includes brands like ABB, Fuji Electric, Omron, Schneider Electric & more.

A protection relay is a relay device designed to trip a circuit breaker when a fault is detected.

This protective relay is paired with zero sequence current transformers to measure the residual current. It will activate the circuit breaker if the leakage current is higher than the set point.

Our protection relays quickly detect and respond to issues like overcurrent, overvoltage, and faults in power systems. Protection relays monitor, detect, and respond to faults or abnormal conditions in ...
