

Specifications and Models of Fiber Optic Heat Shrink Tubing Armor in Five Central Asian Countries

Overview

The following tables summarize the essential parameters presented in the report, including material families, continuous operating temperature, shrink ratios, dielectric strength, flame retardancy, chemical/fluid resistance, and typical applications. It's a heavy wall heat shrinkable tubing with inner spiral polyamide hot melt adhesive coated. This specialized tubing is designed to protect and secure optical fibers, providing a durable and reliable layer that can. LongXing optical fiber heat shrink tubes consist of a rod of reinforcing the splice, hot fusion tubing and cross-linked polyolefin.

Applications: BH-FOCT Fiber optic closure heat shrink tubing is made of medium wall heat shrinkable tube, The internal surface is with a layer of spiral or strength coated holt melt adhesive.

With more than 50 years of experience with insulation and sealing products, DSG-Canusa offers a wide variety of heat-shrink products for the fiber optic cable protection used in communication networks.

The COMPAQ CFOT Series is a medium-wall heat shrinkable tubing designed specifically for fibre optic splice closures in telecom, broadband, and data network applications.

A specially designed cross-linked Clear Heat Shrinkable tubing, with Clear fusion tubing liner, providing protection to fiber optical splices. Available with single fiber and ribbon fiber. Customized designs are ...
