Suppliers of QSI red laser diodes

Suppliers of QSI red laser diodes

Discover QSI laser diodes with CE/RoHS certification, 5-200mW output, and 635-808nm wavelengths—ideal for industrial, medical, and optical applications.

Red Laser Diodes are available at Mouser Electronics. Mouser offers inventory, pricing, & datasheets for Red Laser Diodes.

QSI Laser is a specialized manufacturer of compound semiconductor devices. QSI is mainly manufacturing optoelectronic devices such as laser diodes and red-emitting LEDs. QSI is proving a ...

This section provides an overview for laser diodes as well as their applications and principles. Also, please take a look at the list of 47 laser diode manufacturers and their company rankings.

QSI is a leading laser diodes manufacturer with an excellent reputation for reliable, high-quality product at a competitive price. ProPhotonix has partnered with QSI to provide solutions for a wide range of ...

Variety of products with a power of 5 to 300 mW at 780nm to 940 nm wavelengths, Continuously developing new products to meet market needs.

QSI 685nm 50mW QL68J6SA/B/C Single-mode red laser diode With PD 600-700nm Laser Diode, QSI \$ 25.00 - \$ 26.00 Price range: \$25.00 through \$26.00 Select options Add to wishlist

One of the ways we help our community of laser scientists and engineers find the best products for their projects is by hosting a free Open-Index product database. All manufacturers are also welcome to ...

With its balanced power, stable mode operation, and compact form factor, this laser diode suits industrial and professional devices needing precise, low-power red laser output.

Power Technology (PTI) currently offers a wide variety of high performance laser diodes that range from 405-2,000nm. Besides QSI lasers, PTI also offers diodes from Osram, Oclaro, Eagleyard, and M2K ...

QSI is a leading laser diodes manufacturer with an excellent reputation ...
