

## Types of Huawei SFP optical modules

## Types of Huawei SFP optical modules

Optical modules are important devices in fiber optic communication systems. Huawei Optical Module is manufactured by Huawei Technologies Co. and originated in Shenzhen.

Huawei Data Center Switch Optical Transceiver Portfolio QSFP28 MPO12 Connector Model

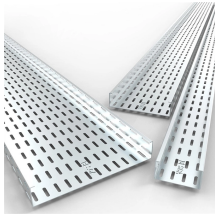

SFP modules are suitable for basic network applications, while SFP+ modules are designed for high-speed and modern network environments. For most modern deployments, SFP+ modules are the ...

Hi-Network offers both new and refurbished Huawei SFP Modules products, with global shipping available within 5-7 days from Hong Kong, China. You can also freely download the PDF data sheets ...

Read the definitive 2026 guide on SFP modules. We explain Single Mode vs Multimode, DDM diagnostics, and how to choose the right transceiver for Cisco, Juniper, and more.

Huawei S series devices support optical modules of the following encapsulation types: CFP, QSFP+, QSFP28, XFP, SFP, eSFP, and SFP+. All optical modules are hot swappable.

Modern fiber networks rely heavily on Huawei LX SFP modules to send data over long distances. These small but powerful plugins use a 1310nm laser to push signals through single-mode fiber, reliably ...

Huawei S series devices support optical modules of the following encapsulation types: CFP, QSFP+, QSFP28, XFP, SFP, eSFP, and SFP+. All optical modules are hot swappable.

Huawei S series devices support optical modules of the following encapsulation types: CFP, QSFP+, QSFP28, XFP, SFP, eSFP, and SFP+. All optical modules are hot swappable.

This document summarizes the specifications of three Huawei GPON optical modules. The modules operate at transmission wavelengths of 1490 nm and reception wavelengths of 1310 nm.

## Contact Us
