VCR Molded Cable Tray

VCR Molded Cable Tray

Cable tray systems are the perfect solution for running large quantities of power or data cables overhead or under-floor. Also known as baskets, trunking, or cable ladders, these systems are designed to ...

Over the past 55+ years, MP Husky US Cable Tray has engineered and manufactured the most reliable, highest quality, cost effective and innovative cable trays systems available.

These fittings help in maintaining support of the cable tray system. Shop Graybar's collection of cable tray and fittings to find exactly what works for your job.

Explore all types of cable trays—ladder, perforated, basket, solid, and channel. Learn their uses, materials, pros, cons, and key differences.

For ease of installation and accessibility, lay cable and hose in trays instead of pulling it through conduit or raceway. These tray systems allow excellent ventilation and prevent sagging while routing.

MP Husky's cable tray selector for choosing the correct tray type (ladder, solid bottom, perforated, wire mesh) and size based on load, cable type and installation requirements.

Refers to the approximate height of a cable tray used for specifying. Selecting a specific height will show cable trays with that height, as well as cable tray accessories compatible with that height.

Choose from our selection of cable trays, including over 850 products in a wide range of styles and sizes. Same and Next Day Delivery.

Our aluminum, I-beam ladder cable trays feature 3-inch tangents and are using connectable with our fittings and accessories. Aluminum ladder cable trays benefit from being lightweight and resistant to ...

It is stronger, provides better cable protection, and reduces installation costs through its push-pin assembly and reduced support requirements, making it a superior industrial cable tray.
