

West Africa Plug-in Optical Splitter

West Africa Plug-in Optical Splitter

It features small size, high reliability, wide operating wavelength range and good channel-to-channel uniformity, and is widely used in PON networks to achieve optical signal power splitting.

Our Ultimate Audio Fiber Converter Hub utilizes cutting-edge optical fiber technology to ensure the highest quality audio transmission. Say goodbye to interference and signal loss, and say hello to ...

Home Products digital video systems digital video systems global 4 way fibre optical splitter ACDC

The BDCOM 1:2 Optical Splitter with SC connectors is a passive device designed to split a single optical signal into two outputs, making it ideal for distributing signals in fiber optic networks.

Optical Splitter 1 In 2 Out Digital Toslink Fiber Audio Cable Adapter You can insert 2 devices at the same time but only 1 device can be played at a time.

Optical Splitter 1 In 2 Out Digital Toslink Fiber Audio Cable Adapter You can insert 2 devices at the same time but only 1 device can be played at a time.

Plug-in optical splitter, also known as splitter, is one of the important passive components in the fibre optic link. It is a fibre optic splice device with multiple inputs and multiple outputs, and it is often used ...

ABS PLC Splitters are designed to be used in point to multipoint PON optical distribution networks and are easily deployed in pedestal, cabinet and splice enclosure environments in Telco and MSO ...

The plug-in optical beam splitter is primarily used in corridor optical beam boxes, and by increasing the number of plug in optical beam splitter used, the port will be extended.

We have got you covered with splitters ranging from 1:2 to 1:64!
