

## What is an enclosed cable management rack

### Overview

Enclosure cable management systems are essential for organizing, protecting, and routing cables and wiring inside industrial enclosures, control panels, and server racks. Proper cable management improves accessibility, reduces the risk of cable damage, minimizes signal interference, and supports. Belden's Enclosure Cable management products maintain proper bend radius of copper and fiber patch cords to provide easy access to connectivity, reduced patch cable routing complexity and simplified moves, adds and changes. The RCM-plus solution provides greater network rack density with increased cable capacity.

## What is an enclosed cable management rack

The basic rack cable management (RCM) product line provides sleek, cost-effective options for basic network closet applications. The enhanced rack provides a low-profile cable management solution, ...
