

Yudu Optical Cable Production

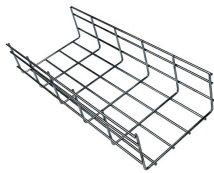

Overview

The company is based in the East Lake High-tech Development Zone (also known as Optics Valley of China, or OVC) and was established against the backdrop of the nation's urgent demand for optical fibers. It then became a joint venture whose technologies came from the Netherlands-based. YOFC is the only company in the world that has independently possessed the manufacturing technology of all three mainstream preforms (PCVD, VAD and OVD), and successfully achieved the industrialization of preform manufacturing technology. In 2021, YOFC won a gold medal from EcoVadis. [Photo/Optics Valley of China] China Mobile released its optical cable procurement results from 2023 to 2024 earlier this. Yangtze Optical Fiber and Cable Joint Stock Limited Company [English: (Abbr. YOFC), SEHK: 6869] SSE: 601869, Founded in May 1988, is a joint venture company focusing on related products such as optical fiber preforms, optical fibers and optical cables, with its headquarters located in Wuhan City. ounded in 1992. Since its founding, the core management team of the company has been working hard in the field of communication network physical connection equipment for early 30 years.

Yudu Optical Cable Production

Section I: Optical communication section Ordinary optical cable, ribbon optical cable, special optical cable, large-core high-density G657A, G654E optical cable; Optical module, passive wavelength ...

This article is an overview on optical communication development in P. R. China during the past 30 years. Based on the initial research and development during 1972-1980, China played an ...

YOFC is the only company in the world that has independently possessed the manufacturing technology of all three mainstream preforms (PCVD, VAD and OVD), and successfully ...

After 10 years of self-imposed hardships to accomplish its ambitions, YOFC has finally achieved the independent research and development as well as independent production of equipment complex of ...

After overcoming numerous hardships and technological bottlenecks, YOFC finally achieved the independent research and production of optical fibers and cables in 2010 - a huge breakthrough for ...

After two months of equipment installation and commissioning, the first roll of optical cable products have been officially off the production line which have fully qualified with international ...

YOFC Science Park was launched, and the foundation of YOFC Qianjiang Science Park was laid; optical fibre and cable plants were successively established within a year in Lanzhou, Shenyang, and ...

The company is located at No. 9, Optics Valley Avenue, East Lake High-tech Development Zone, Wuhan City, mainly producing optical fibers, optical cables, as well as RF coaxial cables, ...

After years of strenuous exploration, YOFC finally developed the equipment and platforms producing optical fibers and cables in 2017 - a milestone for the company and the nation.
